WORK EXPERIENCE

Full stack developer

Oneboard Remote - Since September 2021

- Worked on Next.js, React Native, Node, Strapi, MUI, Tailwind, AWS.
- Migrated **Oneboard** (react-native) app to Next.js & also custom CSS to tailwind.

EDUCATION

Full Stack Web Development

AltCampus Dharamsala, India - From November 2020 to August 2021

B.Tech CSE

Radhakrishna Institute of Technology and Engineering Bhubaneshwar - From August 2015 to April 2019

PROJECTS

Expense Tracker

Using Front-End library (Tailwind) and EJS. I use Node JS and Express app on the Back-End side and MongoDB in the database.
Links: **Github**, **Live**

To-Do App

Created a To-Do application in which we can add, edit and delete to-do's using React hooks.
Links: **Github**, **Live**

Blog App

Created a client-side blog application that fetches data from an API and displays content accordingly using ReactJS, API, JavaScript, HTML, CSS.
Links: **Github**, **Live**

Alt-Events

Created a static clone of a conference landing page that is responsive and adaptive according to the different screen sizes.
